

This panel of accountants provides assistance under the Mortgage Arrears Information and Advice Service. These accountants provide advice on mortgage arrears resolution proposals from lenders. Consultations with accountants on this panel are funded by lenders.

Once a borrower has been presented with a final long-term option for consideration, the lender will advise the borrower to take independent financial advice on the proposed arrangement and that, if the borrower wishes to avail of the option, that the lender will pay €250 (plus VAT where applicable) to an accountant for the provision of specified independent financial advice directly to the borrower.

Borrowers are free to choose their own adviser from the list below and the lender will pay for the advice once only per borrower. The list below is sorted by county and you can find Dublin postcodes at the end of the document.
